**'Sam the man'**

Date: Mar 2009

Microsoft certification training is experiencing a great demand within the IT industry and in recent years has become a global standard for many successful IT companies. **7 Layer** is delighted to add another recruit to this prestigious club in the guise of Sam Plews, software developer, who achieved an excellent score of 911/1000 in his recent Technology Specialist (TS) exam 70-536: TS: Microsoft .NET Framework 2.0—Application Development Foundation. 70-536 is one of the core exams for all the .NET Framework 2.0 certifications. It tests knowledge of Microsoft .NET Framework 2.0 and the implied knowledge of the Common Language Runtime and basic functionality it provides and targets the .Net framework 2.0 and Visual Studio 2005.

The Technology Specialist certifications enable professionals to target specific technologies and to distinguish themselves by demonstrating in-depth knowledge and expertise in their specialised technologies. Microsoft Technology Specialists are consistently capable of implementing, building, troubleshooting and debugging a particular Microsoft technology". Microsoft Learning. The 70-536 exam is part of the MCTS certification group, which also acts as the building block for MCPD (Microsoft Certified Professional Developer).

### About 7 Layer Solutions

**7 Layer Solutions** is a specialist software house focussed on the development and delivery of robust and innovative solutions to the cash logistics industry.

The company has undertaken contracts for banks, security companies, suppliers of cash processing systems and commercial companies, including some of the industry's best known names. We are used to working on commercially sensitive business projects where maintenance of security and confidentiality are essential.

We act as a developer of products for other companies, working closely with the in-house client facing teams to design, develop, deliver and support the software solutions needed by end client organisations such as retailers, commercial banks, cash centres and central banks. We also develop our own range of niche products that we distribute through specialist suppliers of services to the cash logistics industry.
